WEKA 5.4.1 (with database) Added a new methods for Interface Data to be serializable. -----

- As some (a lot) of people like to download some files with different extensions this is a solution. Also a

second solution for it would be to save the link (the 3rd solution) where you can download the file, but this one is not that easy. In the (a lot) of files, there are changes some times, and i know that this is a lot, so if the "convert" to be done several times you can use this simple script. It converts a list of files, or a folder if is your list of files.

```
for /F "tokens=1,2,3 delims=" %%A in ( 'findstr /N "\w+" *.txt *.txt' ) do %Script% %%B  
"\%%A" /O:%%C Script @echo on  
set fileDir=C:\Users\Desktop\WEK
```

A\3rd\Snippets set

```
fileConverted=%fileDir%\%1 cd
%fileDir% for /F "tokens=1,2,3
delims= " %%A in ( 'findstr /N
"\w+" %fileConverted%.txt *.txt
*.txt' ) do %Script% %%B
"%fileConverted%.txt" /O:%%C
```

pause if you have several file names with spaces, use this, this the script

```
for /F "tokens=1,2,3 delims= "
%%A in ( 'findstr /N "\w+" *.txt
*.txt *.txt' ) do %Script% %%B
%.txt" /O:%%C
```

But don't forget to change the %Script% to the path of your script and the %fileDir% to

the folder in which is your txt file.

Q: Firefox: How to show all tabs opened in tab container element at once? I want all tabs opened in my Firefox to show simultaneously.

However, the first time I open the page, only one tab opens. After closing all tabs, all tabs are shown.

When I set the browser (
